

CCLA Citizens Coalition for Legislature Accountability

The Citizens' Coalition for Legislature Accountability is a group of all kinds of groups made up of Hoosiers who want to learn more about how our legislature works and how we can refocus legislators' attention from campaign cash and leadership back to the people they represent. We are non-partisan and encourage groups of all types (and any interested parties) who are interested in improving the legislative process to join us!

CCLA Vision

By informing Hoosiers of the legislative process and its failures, Hoosiers can again become the employers in the citizen-legislator relationship.

Mission Statement

To promote issue resolution through legislature debate, and to hold legislators accountable for participating in and representing only their constituents' values in that debate.

Our Objectives

The goal of the Citizens' Coalition for Legislature Accountability is to educate people on the processes of the legislature. We will be contacting our legislators to let them know that our members are aware of the processes and to advise them that we will be monitoring their voting and participation on bills. We hope to change the chamber rules that hinder the legislative process and make it difficult, if not impossible, for legislators to represent their constituents.
